- Etalon for laser wavelength control and / or tuning
- Large free spectral range > 100 nm
- Low insertion loss
- Fine Tuning by changing angle of incidence (AOI)

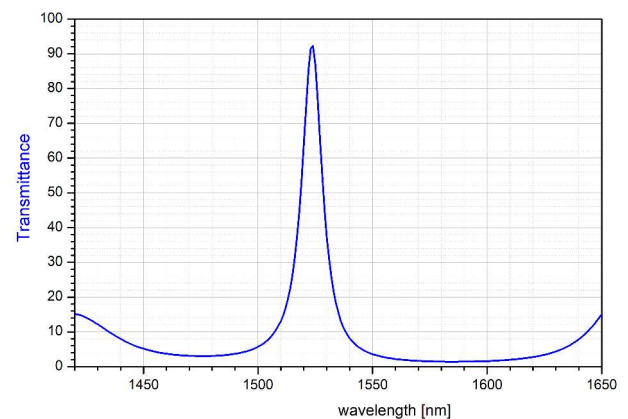

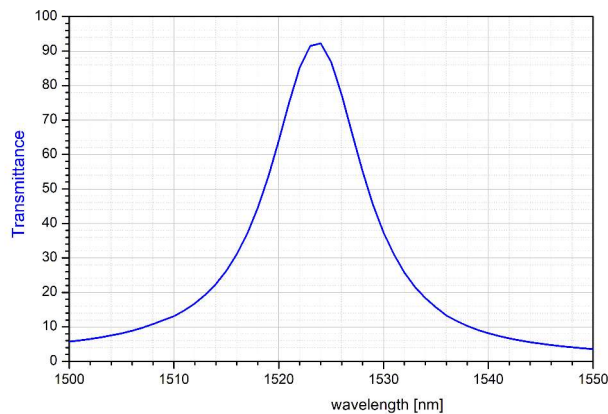

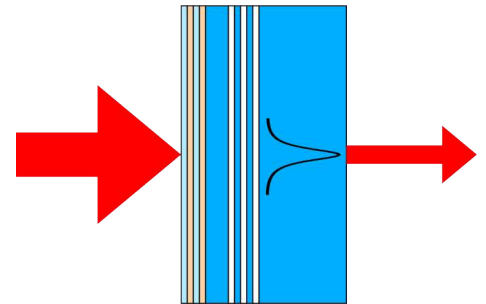

Realisable parameters:

- Wavelength: 900 nm – 2000 nm
- FWHM bandwidth: 10 nm – 90 nm
- Free spectral range: 100 nm – 250 nm

Available Filters:

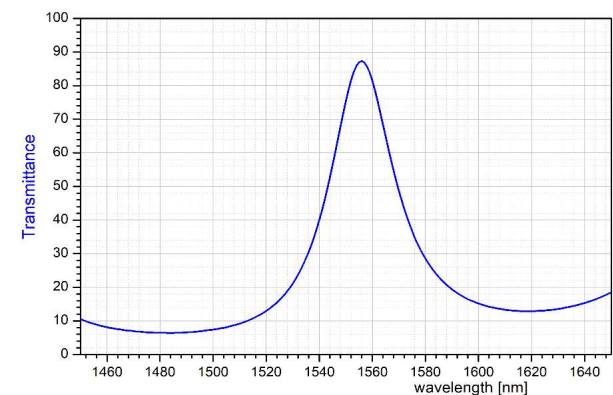

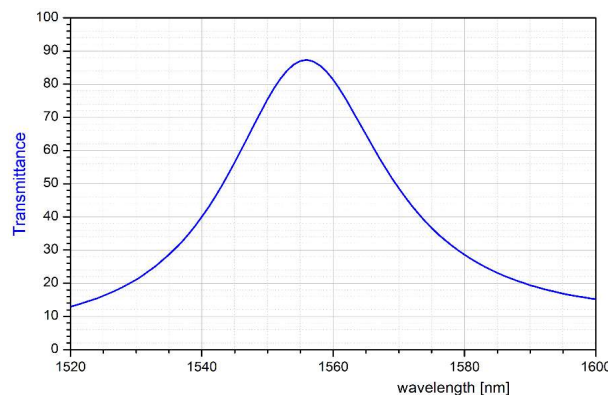

TF-1520-10-100-x

HT wavelength: 1520 nm
Transmittance: > 85 %
FWHM bandwidth: 10 nm
Free spectral range: > 100 nm

TF-1555-30-100-x

HT wavelength: 1555 nm
Transmittance: > 80 %
FWHM bandwidth: 30 nm
Free spectral range: > 100 nm

Other wavelengths and parameters on request!

Notes:
